NATIONAL SEMINAR ON TRIBAL CULTURE & MEDICINAL PRACTICES

29TH & 30TH NOVEMBER, 2021

Organized by
Cultural Research Institute,
Tribal Development Department
&
Backward Classes Welfare Department,
Government of West Bengal
In collaboration with

Sponsored by
Ministry of Tribal Affairs,
Government of India

ABOUT THE SEMINAR

The tribes of West Bengal have occupied a large section of the total population of the state and is the abode of numerous tribes with diverse cultural practices. Their language, custom, dress, ornaments, religion, festivals and traditions enriched the culture of the state. According to 2011 census the Scheduled Tribes comprise of 8.6% (total ST population 104,281,034) of total population of India and in West Bengal it comprises 5.8% (total ST population 5,296,953) of total population. These groups inhabit widely varying ecological and geo-climatic conditions (hilly, forest, valley regions etc.) in different concentration throughout the country with distinct biological isolates along with rich cultural, poor socio-economical background.

The traditional medical practitioner or traditional healer can be defined as “someone who is recognized by the community in which he lives as competent to provide health care by using vegetable, animal and mineral substances and certain other methods based on the social, cultural and religious backgrounds as well as the prevailing knowledge, attitudes and beliefs regarding physical, mental and social well-being and the causation of disease and disability in the community
